Fisherbrand Laboratory Guide

fisher scientific
part of **Thermo Fisher Scientific**

This brochure features over 450 specially selected Fisherbrand products, taken from the wider Fisherbrand portfolio of well over 11,000 items, that have all been chosen to make your laboratory life easier! So, we are pleased to offer not only a selection of brand new items (highlighted below), but also an exclusive collection of popular products from our existing catalogue including many devoted to important application areas such as cryogenics, sealing and labelling, weighing and microbiology to name but a few.

Centrifuge/Stirrer

Multi-Functional Lab Solution
Saves Valuable Benchtop Space
Perfect for Small Research & Education Labs

5 Year Warranty

Two Units in One!

EASY SWITCH OVER — NO TOOLS REQUIRED

Holds 5mL Tubes

High-Speed Mini Centrifuge

Magnetic Stirrer

High-Speed Centrifuge is easy to use and designed to deliver maximum speed (12,500rpm/9,783x g) and flexibility with rapid acceleration and fast controlled breaking

Ideal for most protocols requiring fast spins including PCR, micro-filter cell separation and HPLC. Versatility to handle 0.2, 0.5, 1.5, 2.0 and 5.0mL tube sizes.

Intuitive One-Dial Programming

- Set speed and time with ease
- Adjustable speed from 500 to 12,500rpm
- Speed setting forrpm or RCF
- Adjustable time from 30 seconds to 60 minutes

Safe to Use

Safety features help ensure it will not operate when the lid is open, a rotor is jammed, or the unit is out of balance

High-Performance Magnetic Stirrer is designed using high quality rare earth magnets creating a robust magnetic coupling that significantly reduce the chance of spin-outs.

Perfect for work with sensitive samples and protocols up to 3L requiring aggressive mixing for full dilution.

Easy to Use

Set stir mode, speed and time with easy one-dial programming:
- Select Mode: clockwise, counter-clockwise and oscillate
- Adjustable speed from 50 to 2,500rpm
- Continuous and adjustable time settings from 30 seconds to 60 minutes

Durable Accessories

- Re-usable, easy to clean silicone mats included to keep vessel stable and prevent spills and two rare-earth stir bars (40x12mm) with chemical resistant PTFE coating included

Patent Information

Community Design No. 003515337-0001-0002
Euro. Pat. App. 3 246 088
US Design Patent No. D814,045
Utility Patent Pending

CE RoHS2

Package Includes		
Centrifuge/Stirrer	Stirrer Rotor	12 Tube Adapters 0.2mL
5mL Tube Rotor	2 Stir Bars	12 Tube Adapters 0.5mL
1.5mL Tube Rotor	2 Silicone Mats for Stirrer Lid	
1 low voltage, double insulated power adapter with 4 interchangeable plugs		

Specifications: Centrifuge	
Speed Range	500 – 999rpm (increments of 1); 1,000 – 5,000rpm (increments of 5); 5,000 – 12,500rpm (increments of 25)
RCF	16 – 9,783 x g (max RCF calculated)
Run Time Ranges	30 seconds – 60 minutes (5 second increments)

Specifications: Magnetic Stirrer		
Speed Range	50 – 999rpm (increments of 1); 1,000 – 2,500rpm (increments of 5)	
Run Time Ranges	Stirrer Mode	30 seconds to 60 minutes or continuous (5 second increments)
	Oscillating Stirrer Mode	1 second – 60 minutes or continuous
	Oscillating Period	30 seconds – 15minutes
Capacity	3L Plus. Diameter of vessel not to exceed 130mm	

fisherbrand

High-Speed Mini-Centrifuge
Maximum speed with minimal space

5 Year Warranty

This compact centrifuge is ideal for protocols calling for fast spins with a higher RCF requirement. Made of durable ABS with UV-resistant coating.

User Friendly
Intuitive push-button programming and bright LCD screen make it easy to use.

Quiet Operation
Brush-less motor enables quiet operation and low vibration.
Safety Features
Lid safety feature prevents opening while rotor is turning and clear polycarbonate allows user to see rotor movement for added visual safety. Also includes automatic shut-off feature for sample imbalance and tilt.

Mini-Centrifuge
Mini but Mighty - ideal for small runs

5 Year Warranty

The Mini Centrifuge is ideal for microfilter cell separations and HPLC samples, with adapters to accommodate all major microtube and PCR tube styles (1.5/2.0, 0.5, 0.2mL) for customised use

Easy to Use

Tool-free SnapSpin rotors and quick-spin options make the centrifuges fast and easy to use.

Ergonomic Design

The lid was functionally designed to fit in the palm of the hand for one handed lock and unlock allowing for quick tube extraction. Larger lid size accommodates longer and skirted tubes and tall tube lids.

The housing is made from ABS plastic and lid is polycarbonate plastic enabling the unit to be easily cleaned.

Safety Measures

Fitted with a braking function, the unit stops quickly when powered off or when lid is opened.

A weighted rubberised base eliminates potential movement and dampens vibration and noise.
Accessories and Storage Case Included

EASY SWITCH OVER NO TOOLS REQUIRED

SnapSpin Rotors
change out with the push of a button.
No tools are needed!

Specifications:

Maximum Speed:	Approx. 6,000rpm (fully loaded)
Maximum RCF:	2000 x g
Power:	100–240 VAC 50/60 Hz 0.6A, Approx. 7.3 W

Five-year warranty

CE RoHS2

Package includes:

- Mini-Centrifuge
- 6 place 1.5/2.0mL tube rotor
- 16 place 0.2mL tube rotor (singles, or 2 x 8 strip)
- 6 tube adapters 0.2mL
- 6 tube adapters 0.5mL
- 4 O-rings
- Storage case for rotors and adapters
- Tube rack
- Low voltage, double insulated power adapter with 4 interchangeable plugs

5 Year Warranty

Specially Designed Inserts
seat the centrifuge, all its accessories, and includes a tube rack

12 Volt Car Adapter
for on-the-go testing

Portable Centrifuge Kit
Spin Samples On-the-Go

The Portable Centrifuge Kit offers a convenient way to spin down and prepare samples outside of a conventional laboratory environment

Immediate Field Processing

Process samples in un-powered remote areas before deterioration can take place.

Allows for immediate on-site testing for faster results.

Made of durable ABS plastic for easy clean in field environments.

Easy to Use

Centrifuge is equipped with tool-less SnapSpin rotors for easy change out.

Simple operation with lock/unlock activation

Portable Convenience

All items in kit are housed in a handled transport box for portability.

The handled box has an air-tight seal for optimal sample protection.

Cat. No.	Description	Pack qty
15817944	Portable Centrifugation Kit, 100-240VAC, 50/60Hz Universal Plug + 12V Power Adapter	1 each

*Adapter can be used with Mini Centrifuge units manufactured Jan 1, 2016 - present

Package includes:

- Mini Centrifuge
    - 6 Place 1.5/2.0mL SnapSpin tube rotor
    - 16 Place 0.2mL SnapSpin tube rotor (singles or 2x8 strip)
    - 6 Tube adapters (0.2mL)
    - 6 Tube adapters (0.5mL)
    - 4 O-rings
    - Storage case for rotors and adapters
    - 16 Place tube rack
    - Low voltage, double insulated power adapter with 4 interchangeable plugs

- Transport Box
    - 16 Place tube rack insert
    - Transport box dividers
    - Mini Centrifuge cradle

- Portable 12-volt centrifuge adapter

- Five-year warranty

Reusable Lab Mats
Sustainable, Safe Solutions

Reusable lab mats are an essential lab solution to help keep benchtops organised and clean. They help facilitate workflow processes and are ideal for every type of laboratory

Save Money & Eliminate Waste

Since the lab mats are reusable, they reduce cost and waste making it a more environmentally friendly option over the alternative paper mats.

Adds Stability & Safety

These mats offer a large working surface that is anti-skid which keeps delicate glassware and expensive equipment in place.

The mat's surface is also noise dampening, reducing sound from the vibration of common benchtop equipment.

Made from durable food grade silicone, they are chemically resistance and have a raised edge to contain chemical spills.
Easy to Clean & Store

When the mats are done being used, they can be easily cleaned using any standard disinfectant by simply wiping it, or putting it in a dishwasher and it's ready for repeated use.

Workstation Lab Mat
Safely facilitate workflow processes

Gridded Surface
for tube staging, preventing movement of objects

Reversible,
Side One: combination gridded and smooth surface
Side Two: smooth surface only

- Protect counter tops from hot items up to 200°C (392°F)
- Lip around the edge can hold approx. 250mL of liquid
- Small footprint, 12 x 14.9 x 0.1 in (30.5 x 37.9 x 0.2cm)
- **Autoclavable** at 121° for 15 minutes

| Item No.	Colour		L x W x H *in*	L x W x H *cm*	Pack qty
16361648	Blue	■	12 x 14.9 x 0.1	30.5 x 37.9 x 0.2	1 each

Silicone Lab Mat
Large working space

The lab mat can be used with items such as centrifuges, vortex mixers, hot plates, stirrers, pipettors and so much more

Mat features designated magnetic area to keep stir bars in place.
- Protect countertops from hot items up to 200°C (392°F)
- **Autoclavable** at 121° for 15 minutes

Large Working Surface
accommodates benchtop equipment, weigh boats, stir bars, scales, etc.

Raised Edges
enable liquid retention of approximately 300mL of fluid

- Features a white ABS attachment containing a silicone conical adapter that seals around pipettors without twisting
- Pipettor does not contact hard plastic, which reduces the risk of cracking and chipping
- Elastic band for hanging on reagent bottle or wrist
- Filler fits standard size pipettors

Reservoir Chillers
Modern Design & Enhanced Features

Ice-free, non-toxic way to extend working period and preserve integrity for temperature sensitive reagents

- Reagents are kept at less than 5°C (41°F) for approximately 3 hours
- Engineered custom fit design for 50/55mL or 100mL reservoirs to ensure a maximum contact for longer uniform cooling
- Eliminates the risk of contamination from messy ice bath

Stackable
Saves storage and work space
Symmetrical cooler design
Allows reagent reservoirs to be mounted in either direction

Universal Pipettor Stand
Pipettors never looked so good on your bench top

Stylish pipettor stand holds and stores up to 8 single channel, 4 multi channel, or a combination of both pipettors

Versatile
Patent pending design enables this stand to securely hold virtually every known brand of pipettor in the marketplace

Modular upper holder inserts accommodate the fit of different pipettor widths. Inserts come in two separate colours allowing for colour coding configurations

Durable Utility
Stable weighted base allows for easy one handed removal and replacement of pipettors

Rotating head makes pipettor selection fast and easy

Moving the stand while keeping pipettors in place is simple with a quick grip handle allowing a user to grab and go
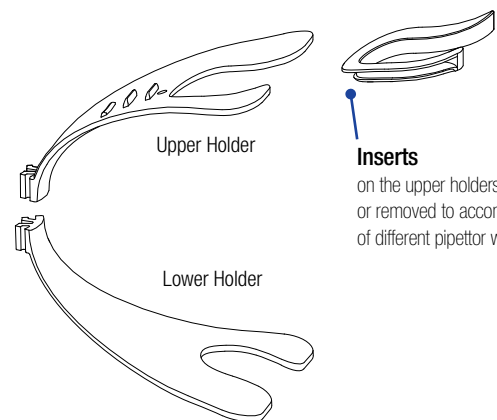

Made of Durable ABS
Easy to wipe clean

Vertical Storage
Helps prevent contamination

Cargo Pipettor Rack
Meets the needs of any lab

Customisable for any situation

Racks securely lock together horizontally or vertically to desired configuration or can be used individually

Can be used on top of benchtop or conveniently hung on any metallic surface with strong magnets that are designed into the racks

- Angled shelves store 0.1 to 50mL pipettors
- Protective lid encloses the unit to prevent dust build-up and provides additional shelf space
Made of Durable ABS
Easy to wipe clean

Cat. No.	Colour	L x W x H *in*	L x W x H *cm*	Pack qty

Clinical 4-Way Tube Rack
Multiple combinations for any situation

The only tube rack with a six way connection to create various configurations and designed to hold round, flat & conical blood collection and culture tubes

Versatile

- Use as standalone unit or infinite units can be linked to create configurations to fit number of wells and tube sizes needed
- Accommodates all brands of 13 and 17mm round, flat and conical bottom blood collection & culture tubes
- Assorted colour pack available for colour coding options

Robust Functional Design

- Uniformly spaced wells help eliminate pipetting errors which enables more accurate results
- Moulded alphanumeric identification for quick location and retrieval of tubes
- Made from polypropylene that is chemically-resistant and easy to clean
- Racks can be used in water baths and placed in freezer

Holds **Multiple Tube Sizes** without multiple racks!

Easy to Configure
Racks slide together to create many combinations

Autoclavable
Blood Tube Brands (include & not limited to)

4-Way Tube Rack
Link together to meet your application needs

Versatile

- Use as standalone unit or infinite units can be linked to create configurations to fit number of wells and tube sizes needed

Robust Functional Design

- Moulded alphanumeric identification for quick location and retrieval of tubes
- Made from polypropylene that is chemically-resistant and easy to clean
- Racks can be used in water baths and placed in freezer

Easy to Configure
Racks slide together end to end or side to side to create many combinations

Tube Racks 5mL/15mL/17mm and 10-17mm
### Exclusive design, optimal functionality

Unique design allows for flexibility while working with a multitude of tube diameters and heights

Customisable
- Rack has two hinged shelves that can be pivoted in either an upper or lower position to securely accommodate the size of tube being used. Lower position is ideal height when working with shorter microcentrifuge tubes

Improved Functionality
- Open design allows for better filling visibility and tube graduations
- Rack wells have a unique teardrop design that enables better retention of tubes over traditional designs
Autoclavable

Embossed Index Numbers

Adapt-a-Rack™ Adaptable Multi-Tube Rack

Flexible & linkable to your needs

Fits 25mL Conical Tubes

Made of POM material with flexible fingers that adapt to accommodate 12-30mm tube diameters and hold them firmly in place

- Racks can be linked together for additional capacity
- Open sides allow for better label and fill level viewing
- Available in solid or a combination of colours for easy coding identification

Shape Changing Solution

Custom fit to any application shape and size! Use it in water or ice baths, in phlebotomy trays, or in a specimen transport case

Chain Tube Rack

Thinking outside the traditional tube rack "box"

Unique & Versatile Design

- Individual racks link together to create a chain that you can configure in multiple shapes and sizes improving workflow process
- Each well has the flexibility to hold 5mL tubes on one side or rotate it 180° to hold 15mL or 17mm tubes (round and conical bottom).
- Open design allows for better visibility of graduations when filling
- Assorted colours to colour code tubes or testing protocols

Tube Racks

Tough and highly resistant to acids, bases, solvents and heat

**Durable racks are moulded in a single, continuous piece
so no assembly required and no detachable pieces**

Intuitive Design

- Unique tear-drop shaped openings offer better retention of tubes
- Moulded in coordinates for tube orientation
- Flat labeling area for easier identification
- Stable design for use with water baths

Available in two materials:

Fibreglass-Reinforced Polyoxymethylene (POM)

- Available in half and full rack sizes for 5 different
  tube diameters
- Offers the highest chemical and heat resistance
  (-40 to +121°C)
- **Autoclavable**

Polypropylene

- Available in full rack sizes for 2
  different tube diameters
- Offers good chemical and heat
  resistance (0 to 110°C)

Reversible Tube Racks 96-Well
Easy-to-grasp tabs for sample handling and storage

**96 wells for 0.5mL tubes on one side and 96 wells
for 1.5/2.0mL tubes on the reverse side**

Optimum Function & Identification

- Wells arranged in standard 8 x 12 array
- Moulded-in gridlines separate 0.5mL wells making them easier to see
- Raised rings around the 1.5mL/2.0mL wells make tubes easier to remove
- Alphanumeric identification for quick location and retrieval of tubes

Secure lid

- Translucent lid snaps onto rack tabs for secure, visible storage
- Spacious enough to fit most screw-top micro-centrifuge tubes
- Stackable, saving valuable space

Mega Rack™
High-capacity storage for your tubes

Fully-assembled, polypropylene mega racks are great for high-throughput labs requiring large sample storage

- Sturdy, material for easy and secure transport of glass tubes
- Alphanumeric identification for quick location and retrieval of tubes
- Place different test groupings into one rack eliminating the need for multiple racks
- Not recommended for autoclaving.

Expanding Storage Box

Single rack, double function

Streamline and reduce sample handling time with this convenient working and storage rack, eliminating the need for several racks when working with samples for cold temperature storage

Efficient Handling

- Expand rack to opening position instantly creating more working space. Enough room for sample manipulation with no interference from open microfuge lids
- Collapse rack into closed position when it's ready for freezer storage
- Compact design will fit into standard 53mm freezer racking system
- Alphanumeric identification for quick location and retrieval of tubes

Safe and Stackable Storage

- Clear lids locks the rack together for safe handling and transportation
- Low profile, easily stackable

Durable Construction
Sides made from polycarbonate, tube holders made of polypropylene

Autoclavable

TracRack™
Convenient Rack System

Comprised of a storage box and eight removable tube segments allowing you to easily take what you need - an entire segment or individual sample - and store the rest!

- Printed index letters on each segment make for quick sample ID and retrieval

Robust Storage
- Moisture and mould resistant
- 2 in. (5.3cm) box made from thin film polypropylene material fits in standard freezer racks
- Store down to -80ºC. Must use tubes capable of being stored at the required temperature of the user

Available in two sizes:

TracRack™ Tube Rack
- Eight polypropylene segments hold 1.5–2.0mL cryo and microcentrifuge tubes (64 tubes)
- Wells feature a centre depression stabilising conical tubes and a cryogenic vial lock for one-handed cap removal

TracRack™ MicroTube Rack
- Eight reversible polypropylene segments that hold 64 x 0.5mL tubes, 96 x 0.2mL micro-tubes, or a combination of both

Low-Temp PCR Rack: 96-Well
Slide, set, work & store PCR samples

Multi-purpose rack converts from compact workstation to lidded storage solution accommodating individual and strip 0.2mL tubes

Versatile & Robust

- Polycarbonate lid serves as cover and elevated rack base - just slide open land pivot lid under rack for compact workstation
- Lid can be used in right or left handed orientation and is detachable
- Stackable saving valuable bench-top and freezer space
- Multiple colours offered for coding options
- Store down to -80ºC with appropriate temperature viable tubes

US Patent Pending, Community Design No: 004101756-0001-0002

PCR COOLER, 96-WELL
Ice-Free Cooling System For PCR Preparation and Storage

Cools industry standard format PCR tubes, strips and single format as well as most 96-well plates, in both standard and low profile well shape

Consistent & Reliable

- Modern design cools faster in freezers and stays cold longer on the bench top
- Maintains the entire 96-well plate at a temperature of 0°C for over an hour
- Maintains sample temperature of less than 5°C for up to three hours (with lid off)
- When the temperature ceiling of 6°C has been exceeded, users are signaled by a contrasting colour change of the cooler or a single well

96 well 8x12 configuration

Changes Colour when the Temperature Changes!

Warm to Cold

Warm to Cold
Two Colour Contrasting Options Available
purple to pink or dark blue to light blue allowing easy monitoring of samples

Ergonomic Textured Finger Grips
provide a secure hold, reducing the chance of dropping the PCR Cooler, and makes handling and transportation easy, especially when using gloves

Vented Lid
enables faster cooling of samples while in freezer

Lid doubles as a stand
When used as a stand the space between the cooler and bench top enables the cooler to stay cold longer as there is no conductive heat transfer

Alphanumeric Well Identification
for quick location and retrieval of tubes

"X" Design
to hold a variety of tube sizes

Slide Rail Design
ensures a secure fit allowing easy placement and removal of slides

Sliding Lock
provides secure storage with easily identified lock and unlock symbols.

Centrally Positioned Numbering
enables simple slide organisation with easy viewing of location numbers

Patent Pending

fisherbrand

100-Place Premium Plus Slide Box
Modern design for maximum functionality

Optimal Organisation
- Organise by "project" and "date" moulded-in on lid
- Inventory card index corresponds to slide numbers and is removable for trouble-free writing on flat surface.
- Vibrant translucent colours are easy to identify and enable coding options

Functional Design
- Flexible storage, store vertically or horizontally to efficiently use space
- Moulded feet allow secure horizontal stacking of multiple units
- Unique side storage can accommodate a pen, desiccant or other small items needed for working
- Hinged lid smoothly opens 180° sitting flat on surfaces and prevents misplacement

Safe & Secure
- EVA foam lines the bottom of the box helping to hold slides securely in place and protect against damage
- Stylish wave surface texture is easy to hold for safe sample transport

fisherbrand

Cardboard Slide Tray
Cardboard slide trays hold standard slides
(26 x 76mm and 1 x 3 inches)

Cardboard slide folders offer a convenient solution for safely working, transporting and short-term storing of slides

Organise & Protect

- Index on the front cover corresponds with the number grid inside for identification
- Recessed slide compartments and inside covers for specimen protection
- Slides cannot be accessed when cover is closed reducing contamination

Sturdy Construction

- Compartment holder is made from a double layer of densely pressed cardboard. Cover is single layer cardboard
- Front protection flaps are attached with durable tape

Thumb Notch
allows for easy removal of slides

*fisher*brand

Transport Box
Specimen or Sample Transport Box

Ideal for transporting biological and clinical samples, as well as instruments and products that you want to keep clean and dry under testing environmental conditions

The transparent box design helps comply with OSHA 29 CFR 1910.1030 standards without having to re-label containers, and enabling the user to visibly check sample integrity.

- Polycarbonate construction and available in three colours for user/owner identification
- Will accommodate 13 and 16mm tubes in a 72-place tube rack (page 21), or similar sized/brand of rack
- Use the separators provided to create your own compartment sizes
- Take out separators to transport larger products and equipment
- **Autoclavable** 120°C for 15 min., 16 psi (1.1 bar)

A silicone water-tight seal and three clasps provide secure closure

Arctic Squares™ Polycarbonate Cryostorage Boxes
Safely store cryogenic vials

Our polycarbonate boxes are designed with unique features to help orient, identify and access vials with ease

- Liquid nitrogen vent and drainage holes
- Magnet on top of forceps enables easy storing on metal surfaces
- Stackable, saves valuable space in the lab
- Store down to temperatures of -196ºC with appropriate temperature viable tubes

Organisation
Forward-sloped base and high contrast indexing on the transparent lid ensures quick visual orientation

Hinged Lid
with built-in stop allows easy one-handed access to samples *(not on 11938084, slip on lid)*

Autoclavable

Quickly Identify
samples with a frosted label area on the lid

Magnetic Forceps
help pick vials and remove boxes from freezer racking *(supplied with style b)*

US Patent No. D529622; EP Registered Design No.: 00551429-0001, 00551429-0002, 00551429-0003

Freezer Boxes
Reusable, economical and moisture resistant plastic

- Easy to assemble boxes made from polypropylene material
- Moisture resistant, more durable than cardboard boxes
- Dividers included with the boxes
- Corrugated polypropylene: store down to temperatures of -80°C with appropriate temperature viable tubes
- Thin film: can be used in mechanical freezers & vessels down to -196°C with appropriate temperature viable tubes. Vapour phase only.

Mould Resistant
Freezer boxes are supplied "flat-packed"
Eliminating the hassle of stacking and reduces the amount of space needed for storage

Universal Freezer Rack
Innovative horizontal drawer system for upright freezers

- Constructed of corrosion-resistant stainless steel with four drawers to hold 16 boxes
- Drawers feature a unique stop, that when fully extended pivot down allowing for easy box access
- Steel drawer handles provide a user-friendly grip
- Freezer rack also includes a pull-out wire handle for easy removal off the freezer shelf
- Compatible with most standard 5.3cm freezer storage boxes

**Unique drawer stop**
that pivots down allowing for easy box access

Steel drawer handles
have a space to insert a label, and provide a user-friendly grip

Paper Boats
Green solution to sample weighing

Made from FSC™ Certified (FSC™ Mix Credit) paper (Eco-IN) and when disposed of in the standard waste stream they will naturally biodegrade (Eco-OUT)

- A cost-effective solution to reduce plastics in the lab
- Made of grease-proof paper that meets FDA 21 CFR 176.170 (components of paper in contact with aqueous and fatty foods) and with 2I CFR 176.180 (contact with dry foods)
- Control contents like a polystyrene weigh boat because they are easier to pour
- An alternative to regular weighing papers because they are easier to handle

Functional in the Lab
Available in a small and medium in both brown for light coloured samples and white for dark samples

Disposable Spatulas
Designed to fit perfectly with standard 0.2, 0.5, 1.5/2.0, 15 and 50mL tubes

- Made of virgin, food-grade polypropylene
- Ideal for dispensing or sample collection of powders or soft solids
- Durable to work with liquid nitrogen frozen samples
- Hollow core minimises heat transfer— good for hot and cold liquids
- Antistatic, sterile and eco-friendly versions available

Always there and always clean!

Weighing Boats

Flexible polystyrene boats feature smooth surfaces to provide accurate pour-outs with minimal sample loss

- Ideal for weighing, dispensing, or storing applications
- Select white, black, or blue for best colour contrast to ensure sample is completely removed
- Biologically inert and resistant to dilute and weak acids, aqueous solutions, alcohols, and bases
- Temperature range -10 to 70°C (14 to 158°F)
- Antistatic versions available making the boats nonreactive with most substances and suitable for weighing static-affected samples
- Wide flat bottoms ensure stability and prevent tipping
- Rounded corners allow simple flexing for controlled pouring of liquid, powdered or granular samples
- Flat bottoms and sloping sides allow easy stacking for convenient storage
- Can be used with microwave moisture analysers
- Made from FDA/food-grade compliant material

Dual Purpose Scoops

Scoop + Weigh Boat

Unique economical solution that combines the function of a scoop and a weigh boat into one, streamlining the process. Just scoop to retrieve, place on scale to weigh!

- Made from anti-static polystyrene that is waterproof and reduces the chance of materials sticking to the scoop
- Ships and stores flat, easy to assemble for use
- Locking tab feature enables a scoop shape to help retain materials
- Coated to stand up to powders, gels, and semi-solids
- Electronic beam sterilisation procedures compliant with ISO11137-3:2017
- Certificate of Sterility available upon request

Modular Glove Box Holders
Available infused with Microban™ for anti-microbial protection

The anti-microbial version (blue) is ideal for use in clean rooms, hospitals, and microbiological work areas. The Microban additive prevents growth of moulds and bacteria

- High-impact, durable resin is resistant to harsh cleaning solutions
- Modular design allows single boxes or horizontal stacking for multiple box holders
- Universal fit for most major brands of glove boxes
- Mounting screws included

Cat. No.	Description	Colour		L x W x H _in_	L x W x H _cm_	Pack qty
15380440	Standard	White	☐	10 x 6.1 x 3.8	25.4 x 15.6 x 9.7	3pk
11710644	Anti-microbial	Blue	■			3pk

Microban® Microban™ antimicrobial protection has been built-in to our anti-microbial glove
antimicrobial product protection boxes during manufacturing. When microbes, such as bacteria, mould and mildew that can cause stains, odours and product deterioration come in contact with the glove box surface, Microban protection penetrates the cell wall of the microbe and disrupts key cell functions so that the microbe cannot function, grow, or reproduce. Microban protection is an intrinsic part inside and at the surface and will not wash off or wear away for the useful lifetime of the glove box.

US Patent No. 6669157

Adaptable
Store different size boxes all in one holder

Flexible Glove Box Holder
Glove box holder ideal for gloves, face masks, shoe covers...

The adjustable holding points provide true flexibility to hold up to four different boxed protective products and other lab essentials (size dependent)

- Ideal for holding different boxed sizes of gloves, mop caps, ear plugs, face masks, shoe covers
- Adjustable universal fit
- Easy to clean, with a low profile
- Wall or door-mountable
- Mounting hardware included
