

Thermo Scientific  
Custom Antibody Production Services

# trusted expertise in custom antibody development

Antigen design • Polyclonal/Monoclonal services • Purification  
Conjugation • Thermo Scientific™ OpenProject™ Tool tracking

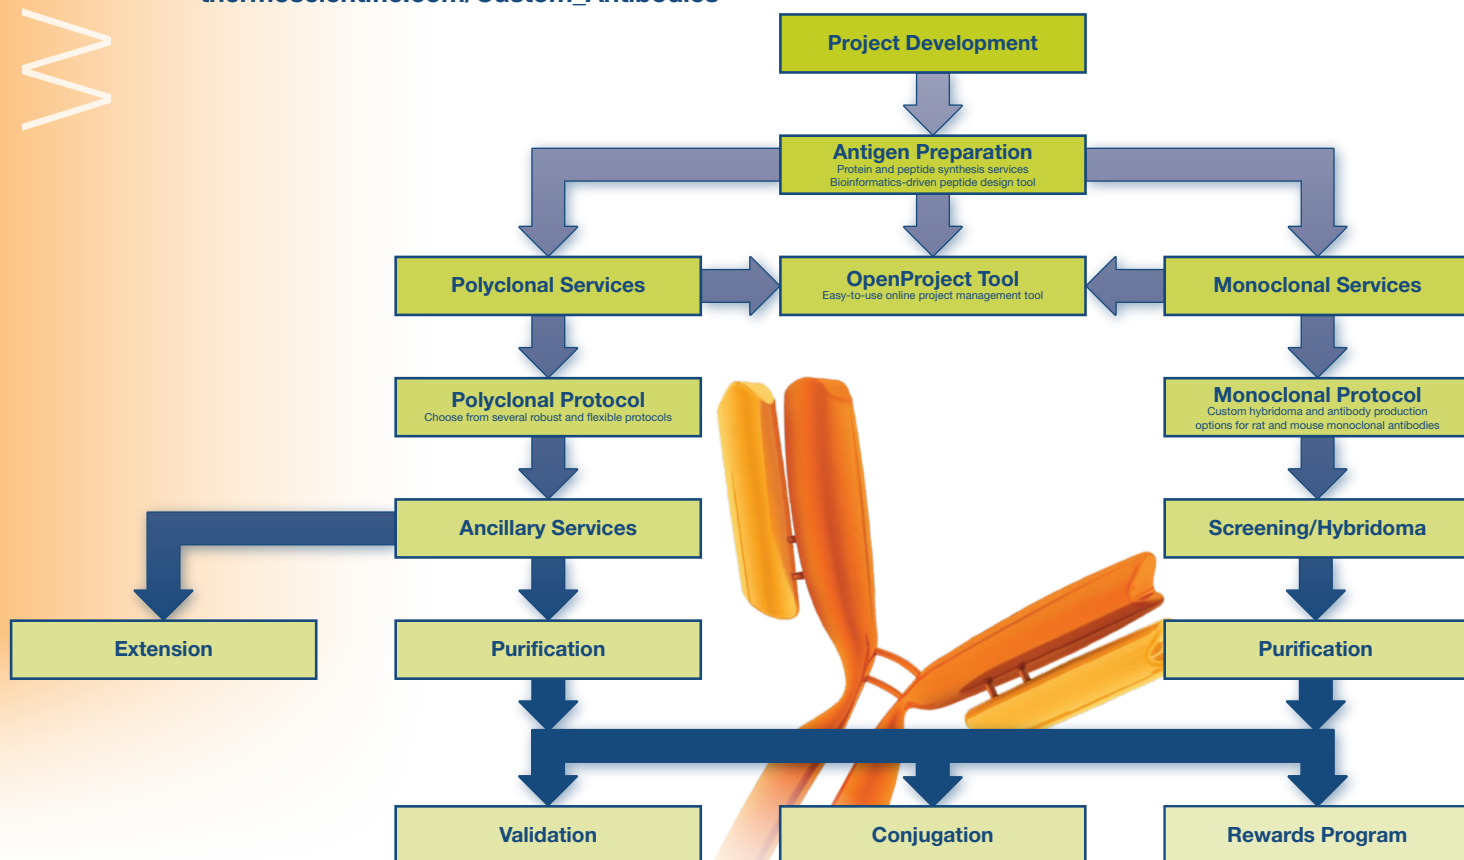

# Custom Antibody production services

The highest degree of expertise every step along the way.

Our scientists have many years of experience developing over 16,000 custom monoclonal and polyclonal antibodies for academic, government and commercial labs throughout the world. Through our Custom Antibody Production Service, you have access to exclusive resources developed and optimized based on our experience, including proprietary and proven methods of antigen design, peptide conjugation, immunization and purification.

Let us enable your production project with better antibodies and services, and trusted antibody expertise. Contact us today to see how we can help your lab.
