Potent Intestinal Inflammation Reagent

Dextran Sulfate Sodium Salt (DSS) is a polyanionic derivative of Dextran. MP Premium DSS is offered at the highest quality, purity and reproducible form which enable it for multiple applications in clinical, molecular biology, biomedical and possibly for cosmetic applications.

- Water soluble polyanion
- Forms a clear solution and mimics natural mucopolysaccharides
- High purity and good stability
- Readily degradable by ecological systems; acts as a stabilizer to sensitive natural ingredients

MP Premium Dextran Sulfate Sodium Salt from MP Biomedicals is one of the most widely used products based on peer reviewed scientific publications. Over the past 15 years, 3,000 scientific publications have cited the use of our DSS. Hence when you select one of our DSS offerings, you can be assured of the performance based on quality, performance and validity.

- **Validated by 3,000+ scientific publications**
- **Highest purity (99%) and stability**
- **Offers highest sulfur content (18-20%) < 0.2% free sulfate**
- **Highest efficiency**
