

Lab Recharge 2021

Filtration solutions
for **applied markets**

Introducing Cytiva

We are excited to share with you that GE Healthcare Life Sciences is now Cytiva. The name is new, while the rest stays as you know it! Cytiva is a global provider of technologies and services that help advance and accelerate the development and manufacture of therapeutics. With a heritage of innovation, they continue to move forward, building on the brands you've come to rely on for quality and reliability. Get reacquainted with Cytiva, the global life science leader you already know. Learn more about our Cytiva journey at [cytiva.com](https://www.cytiva.com)

The portfolio of Lab Consumables includes the brands that you know and trust. Cytiva brings speed, efficiency, and capacity to life sciences research and production, enabling the delivery of transformative medicines to patients.

Shop for Cytiva products at eu.fishersci.com.

A blue rectangular graphic with the Cytiva logo at the top left. Below it, the text "Whatman The little filter that's as resilient as it is reliable." is displayed in white. At the bottom left, there is a small "Learn more" link with a right-pointing arrow. On the right side, there is a white line-art illustration of a filter assembly.

 **Whatman**
The little filter
that's as resilient
as it is reliable.
[Learn more](#)

What do Napoleon, George Washington and Queen Victoria have in common?

Answer: Whatman

Before Whatman was known for laboratory filtration processes, it had an enviable reputation for producing the finest writing paper throughout the world. Despite the posh beginnings and enormous success, Whatman pivoted its business plan and answered the call of duty during WWI when the British government needed filter papers for steel production. The rest, as they say, is history.

How we give back

Fisher Scientific is supporting Cytiva Think Pink Campaign in the month of October. For each unit purchased of genomics, lab filtration, protein purification and Western blotting products in the month of October, Cytiva will give \$1 to the Breast Cancer Research Foundation (BCRF).

We raised a total of **\$321,376** for the BCRF in 2020, which translates to **more than 3 years of research**. For more details click on the banner.

Think Pink in October with Cytiva

#CytivaThink Pink

New lab start-up programme

Setting up a new lab? Expanding or renovating your lab? Relocating to new premises? In receipt of a first-time grant?

Visit the following link to find out more about the product offering in the Fisher new lab start-up programme: eu.fishersci.com/go/nlsu
