Introducing Cytiva

We are excited to share with you that GE Healthcare Life Sciences is now Cytiva. The name is new, while the rest stays as you know it! Cytiva is a global provider of technologies and services that help advance and accelerate the development and manufacture of therapeutics. With a heritage of innovation, they continue to move forward, building on the brands you've come to rely on for quality and reliability. Get reacquainted with Cytiva, the global life science leader you already know. Learn more about our Cytiva journey at [cytiva.com](https://www.cytiva.com)

The portfolio of Lab Consumables includes the brands that you know and trust. Cytiva brings speed, efficiency, and capacity to life sciences research and production, enabling the delivery of transformative medicines to patients.

Bringing you the established brands across the protein research workflow

Sera-Mag™ – Nucleic acid sample and library preparation

HyClone™ – Cell culture media and sera

Whatman™ – Laboratory filtration products

ÄKTA™ – Chromatography columns, resins and systems

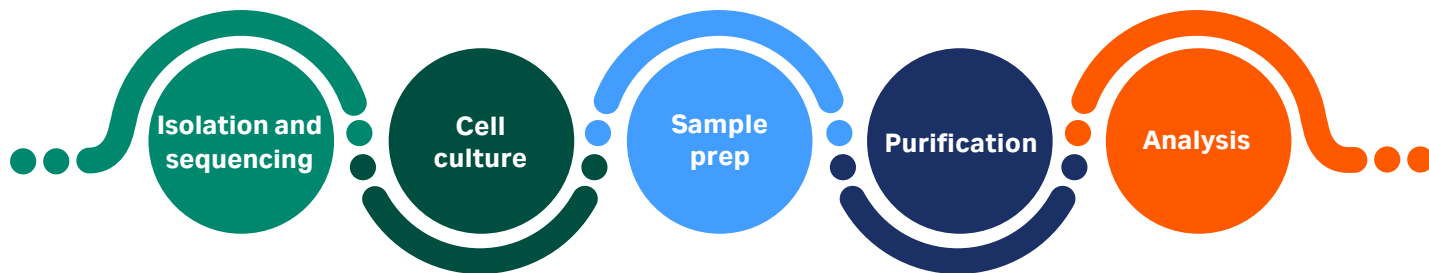

Amersham™ – Systems, membranes, films and reagents

Recharge your research with great
offers from Fisher Scientific.

Find it at eu.fishersci.com

Simplify your nucleic acid sample and library preparation process

Culture, harvest, and preserve your cells

Filter, separate, and clarify your samples

Purify and concentrate product consistently and reliably

Verify, quantitate, and characterize your samples

How we give back

Fisher Scientific is supporting Cytiva Think Pink Campaign in the month of October. For each unit purchased of genomics, lab filtration, protein purification and Western blotting products in the month of October, Cytiva will give \$1 to the Breast Cancer Research Foundation (BCRF).

We raised a total of **\$321,376** for the BCRF in 2020, which translates to **more than 3 years of research**. For more details click on the banner.
