Reusable Lab Mats

Sustainable, Safe Solutions

Reusable lab mats are an essential lab solution to help keep benchtops organised and clean. They help facilitate workflow processes and are ideal for every type of laboratory.

Save Money & Eliminate Waste

Since the mats are reusable, they reduce cost and waste making them a more environmentally friendly option than paper mat alternatives.

Adds Stability & Safety

These mats offer a large working surface that is anti-skid to keep fragile glassware and expensive equipment in place.

The mats surface is also noise dampening, reducing sound from the vibration of common benchtop equipment.

Made from durable food-grade silicone, they are chemically resistant and have a raised edge to help contain spills.

Easy to Clean & Store

Between uses, the mats can be easily wiped clean using any standard disinfectant or placed in a glassware washer.
