

# All-round protection is in your hands

KIMTECH SCIENCE\* Nitrile Glove range. Superior protection for Scientists and their Science.

It all adds up...
to Exceptional Laboratories

For KIMTECH SCIENCE\* gloves
vs. KIMTECH SCIENCE\* PFE\* Latex gloves
Biohazard protection; EN374-2:2003 air and liquid leak test using ISO2859 sampling to determine Acceptable Quality Limit (AQL)
Limited chemical splash protection EN374-3:2003 chemical permeation test results for individual chemicals available on www.kimtecheu
Contaminants: IEST-RP-CC005.3 test method to measure level of particles; non-volatile residue and extractable lons, conducted periodically by internal product testing laboratory

# Choosing the right glove

KIMTECH SCIENCE\* Gloves are vital tools in laboratory and research environments, providing all-round protection in a wide range of scientific applications - protecting the Scientist and the Science.

#### **KIMTECH SCIENCE**\* **PURPLE NITRILE<sup>\*</sup> Gloves**

Unrivalled protection, cleanliness and quality<sup>1</sup> Our #1 choice for higher risk applications.

- Market leading glove in Life Sciences and Pharmaceutical Manufacturing
- Best chemical protection in the range, tested against over 50 chemicals
- Strength, quality and cleanliness tracked by Certificate of Analysis

EN3 1:20

### **KIMTECH SCIENCE**\* **STERLING<sup>\*</sup>** Nitrile Gloves Innovation combines

protection, comfort and sustainability for all-round care of the Science and the Environment.

- STERLING\* Nitrile gloves is our best combination of protection, comfort and tactile sensitivity
- Tested against over 40 chemicals
- Strength, quality and cleanliness tracked by Certificate of Analysis

### **KIMTECH SCIENCE**\* **GREEN NITRILE Gloves**

Comfortable, durable and sustainable, providing protection for low risk research applications.

- Distinctive colour for task differentiation
- 250 gloves per standard sized box - reduces waste, space and environmental impact
- Better chemical protection than latex<sup>2</sup>, over 30 chemicals tested

#### **KIMTECH SCIENCE**<sup>\*</sup> **COMFORT NITRILE Gloves**

Combines high comfort, quality and cleanliness for protection in low risk research applications.

- A brand-new nitrile formulation engineered for comfort
- 150 gloves per standard sized box for all sizes
- Better chemical protection than latex, tested on the 6 most common chemicals in the lab

## **Together we create Exceptional Laboratories**

**The True Costs** 

Total costs of work-related accidents and ill-health<sup>1</sup>

Additional costs per year due to contaminated blood and tissue cultures<sup>2</sup>

Cost on average for using the wrong type of PPE also violating GLP and EC directive 89/686/EEC<sup>3</sup>

## Demonstrating GLP Compliance

Health & Safety Legislation and Good Laboratory Practices (GLP) are resulting in more stringent justification of the laboratory glove selection.

## **Protection** of the Scientist

Laboratory Safety is your #1 Priority. KIMTECH SCIENCE\* Nitrile gloves are specifically designed to protect Scientists from Chemical Splash and Micro-Organism Hazards.

- Most comprehensive Chemical Permeation test results of any Laboratory Gloves on the market
- EN374-2 Level 3 and ISO 16604:2004 certification - the highest level of micro-organism protection possible for laboratory gloves
- Meeting the requirements for antistatic according to EN1149-5:2008 - static discharge can be a fire risk
- Non detectable level of chemical accelerators to mitigate risk of skin irritation

## **Protection** of the Science

Protection of procedures and assays from contamination is vital. Contamination costs time, money and credibility.

- Manufactured to reduce levels of residuals, outperforming competitor laboratory gloves on cleanliness
- Certificates of Analysis for each production lot demonstrates low residue levels<sup>6</sup>
- Non detectable levels of silicone, amide and phthalate (DOP)

## Assured Compliance

Health & Safety and GLP compliance are the foundation of Exceptional Laboratories.

KIMBERLY-CLARK PROFESSIONAL\* makes demonstrating compliance with Laboratory gloves easier than before

- PPE Category III Certified for protecting from Chemical Splash and Micro-Organism Hazards and compliant with medical device standards EN455-1, -2, -3, -4
- Publish Certificates of Analysis (CoA) with every production lot to provide you with assurance of barrier quality and cleanliness of the gloves<sup>6</sup>
- QR codes on all boxes link to a rich source of on-line documents, including Technical Data Sheets, CE Certificates and a link to our Certificates of Analysis website

Personal safety and process protection are paramount in laboratories and production areas.

KIMTECH SCIENCE\* gloves give you the confidence that your glove selection is contributing towards GLP and GMP compliance at your facility.

## Introducing RightCycle\* Program by KIMBERLY-CLARK PROFESSIONAL\*

КІМТЕСН

Your company needs an effective solution to mitigate waste and help you reach your Corporate Social Responsibility (CSR) and Sustainability goals. But what's the best solution for your business?

#### Introducing RightCycle<sup>•</sup> by KIMBERLY-CLARK PROFESSIONAL<sup>\*</sup>.

We have resolved the recycling process beyond downcycling, upcycling and other ideas – with the right way to recycle. **RightCycle'** makes it easy to recycle previously hard-to-recycle products like cleanroom garments and gloves. Now the garments and gloves from KIMBERLY-CLARK PROFESSIONAL\* used in your facility can be turned into a variety of useful, eco-friendly products. **RightCycle'** is good for your business and good for the environment.

Waste turned into eco-friendly products
