SGE syringes have been the syringe of choice in analytical laboratories for over 50 years

In the laboratory it is essential to have the right consumables to deliver an efficient workflow. The analytical syringe plays an important role in ensuring consistent delivery, precision, accuracy, and integrity of the sample.

Trajan Scientific and Medical (Trajan) is focused on delivering a portfolio of high performance syringes designed to meet these requirements.

We combine precision manufacturing and meticulous assembly, to create SGE syringes for precise volume delivery of your analytical samples.

Our comprehensive expertise in liquid handling technologies with glass and metal assembly enables us to develop syringes for a vast variety of applications.

We are confident this guide will assist you in identifying the right SGE syringe for your application. If you need help with your selection, please contact us to recommend appropriate products or to investigate a custom solution for you.
