

Think **PINK** in October

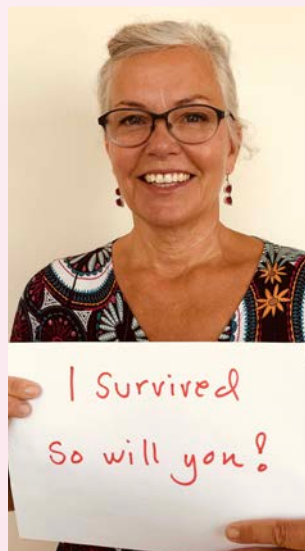

October is breast cancer awareness month, and GE Healthcare is supporting breast cancer research with a contribution to the Breast Cancer Research Foundation (BCRF).

GE Healthcare will donate \$1.00 to the BCRF for every pack of our Whatman™ lab filtration products purchased during the month of October*.

Last year we met our goal of raising \$100 000, so this year we are aiming higher. With your help, we will donate up to \$125 000 for breast cancer research.

Together we can make a difference!

OUR GOAL: to help the BCRF continue to advance breast cancer research by raising **\$125 000**.

The BCRF impact on cancer— 25 years, 25 game-changing discoveries

From exploring ways to prevent the disease to learning why some families are more susceptible, we know more about breast cancer today than ever before. Research is improving care, producing better outcomes and transforming lives—every day. Check out the progress and impact BCRF is having on breast cancer research at: www.bcrf.org

Together we can make a difference!

Whatman lab filtration products are used in labs around the globe. Help us continue to support the BCRF's mission to fund critical work in areas from cancer research to drug discovery and development.
