Greener Science

Every academic career begins with a new scientist entering the laboratory with a world of questions, and decisions to make. Whatever your discipline — microbiome, virology or any of the many other branches of science — the key question is **“how will my science affect the world?”**

Maybe the next question should be **“how can I reduce the impact of my science on our environment?”**

Take some time to discover how Eppendorf can help you deliver greener science, while maximizing your sample safety, reproducibility and reliability.

fishersci.co.uk/gb/en/catalog/search/program/greener-choice?Eppendorf

To help you achieve these aims, read on and discover our special promotions designed to support your success in the lab. In addition, visit our website to access videos, infographics, application notes and more!

What are you waiting for? Take the first steps to greener science now!

17%

Electronic Pipettes – Page 4

Get the **Xplorer™ plus** for the same price as Xplorer™ and enjoy additional features.

20%

Incubators – Page 5

Up to 20% savings when you choose the **CellXpert™ C170 / C170i CO₂** incubator + universal stacking stand.

20%

Centrifugation – Page 7

Trade-in or upgrade: save up to 20% on the **Centrifuge 5910 Ri** when you trade-in or upgrade your old device.

25%

PCR – Page 8

Make the most of your hard work, with up to 25% off your next **Mastercycler™ X50**.

20%

Freezers – Page 9

Save up to 20% when you choose a **CryoCube™ F570n or F740h** ultra-low temperature (ULT) freezer.

GROW TOGETHER

Let's Renew

Replace your old ePipette to reduce CO₂ emissions

- > Easy to use with the intuitive pipette display
- > Protect yourself from RSI and pipetting fatigue with electronic pipetting
- > Save time with automatic dispensing, mixing functions and more!

Many old electronic pipettes still have batteries that are less efficient or self-discharge more quickly than modern Lithium-Ion or Lithium-Polymer batteries in newer models. Replace your old model now and help reduce the energy consumption your lab!

Get the Xplorer™ plus for the price of the Xplorer™ and enjoy additional features free of charge.

Let's Optimize

Seek out reduced gas consumption to keep costs down

- > Reduce contamination risks and save cleaning time with a seamless chamber
- > Grow more cells by using the whole chamber, gain up to 25% more usable space by having no fan inside
- > Maximize your lab space by stacking CellXpert with CO₂ incubators of other brands

Save up to EUR 8.300 over five years with CellXpert.

The cost of gas and the effort of exchanging gas cylinders can produce significant running costs that can easily exceed the initial purchase price. CellXpert™ CO₂ incubators are designed for reduced gas consumption and help you keep these costs at bay.

Data fact: Consumption of CO₂ at 5% (without door opening) consumes < 1 L / day.

**CellXpert C170 / C170i CO₂ incubator
+ universal stacking stand.**

| Ordering information | Cat. No. | List Price | EUR Special Price |
|---|----------|------------|----------------------|
| C170i, Universal stacking stand EU CellXpert™ C170i, non-segmented inner door, handle right side, 220-240 V/50-60 Hz (EU) Universal stacking stand, upper frame, CellXpert with other 170 L CO ₂ incubators | 17435869 | 9.928,00 | 7.942,40 |
| C170i 4-door + Universal stacking stand EU CellXpert™ C170i, inner door with 4 door segments, handle right side, 220-240 V/50-60 Hz Universal stacking stand, upper frame, CellXpert with other 170 L CO ₂ incubators | 17455869 | 11.670,00 | 9.336,00 |
| C170 + Universal stacking stand EU CellXpert™ C170, standard display, non-segmented inner door, handle right side, 220-240 V/50-60 Hz Universal stacking stand, upper frame, CellXpert with other 170 L CO ₂ incubators | 17475869 | 8.546,00 | 6.836,80 |

Stacking stand, lower frame, with castors is required (Cat. No. 16251601) if you have an existing Galaxy™ 170 R or S incubator, if not already installed.

Let's Collaborate

Take care of your centrifuge and it will take care of you

- > Save money and time! One bucket for all vessel types eliminates the need for additional buckets
- > Close your centrifuge with only one finger using our soft-touch ergonomic lid lock
- > Reduce errors and save time with the new intuitive 7-inch touch interface

Eppendorf can support in taking care of your old centrifuge, in some of our locations. We cooperate with local recycling companies to support our customers with options to dispose of your old multipurpose centrifuge*.

* Subject to local exceptions. Contact your local sales office for further information.

Save up to 20% on the Centrifuge 5910 Ri when you trade-in or upgrade any old multipurpose centrifuge.

Let's Get Started

Make the most of your hard work

- > Find faster PCR! With up to 5 °C/s ramping speeds, the X50a can significantly reduce your run time
- > Save time by optimizing both annealing and denaturation temperatures in the same run
- > You choose your consumables! Our flexlid™ automatically adjusts to tubes and plates of different heights

Is being around noisy equipment in the lab stressful for you? When making a decision on new equipment for your lab, make sure to ask your vendor about noise levels.

**Best for academic and research applications:
Mastercycler™ X50a / X50I.**

Let's Protect

Your total cold storage solution for ultimate peace of mind

- > Make your laboratory greener and save money without sacrificing performance with our proven freezer design
- > Protect your samples with rapid temperature recovery and pull-down times
- > Save time with automatic pressure release allowing easy door re-opening after closure

We set high sustainability standards for ultra-low temperature (ULT) freezers with independent testing and verification under standardized conditions as well as certification with ACT™ label by My Green Lab and ENERGY STAR™ for many CryoCube™ models.

Choose a CryoCube™ ULT freezer and begin your total cold storage solution.
