

### Pinnacle Portfolio Stains

The unique chemical formulae of these components promote long-term chemical stability, which extends the usable life of the stains.

a **1st Choice**<sup>SM</sup> product

Pinnacle Portfolio is a line of premium stains and reagents branded specifically for Fisher HealthCare. This premium line has been engineered with proprietary formulations, unique packaging technology, and strict quality control measures that ensure that the product has the highest standards of excellence, consistency, and longevity. All components in the Pinnacle Portfolio are formulated to work together and to complement each other.

- The Pinnacle Portfolio is designed as a system. Each component has added value and benefits that reduce your cost per slide.
- The unique chemical formulae of the Pinnacle Portfolio promotes long-term chemical stability, which extends the usable life of each component.
- Pinnacle Portfolio products are subjected to some of the highest quality manufacturing standards in the industry.
- Packaging improvements enhance product longevity.
