

Winter Weather Hazard Preparedness and Response

Safety

Protecting What Matters Most

In the United States, winter weather hazards were the cause of the most fatalities of all weather-related deaths in 2019, a total of 144.¹ According to Canadian and international researchers, cold temperatures kill about 20 times as many people worldwide as hot temperatures do.²

Rely on the Fisher Scientific channel for the products and solutions you need to prepare and respond to winter weather hazards.

Winter Hazards Product Checklist

Use our checklist to make sure you're ready when the seasons change.
